Gordon freeman drove down hwy 17, coming upon a house; he parked his buggy in the garage, spawned a new one and drove off. Something just told him to do so.

Well little did Gordon know, that the buggy would give Adrian Sheppard a way to the base, sealing the combine's fate forever.

Well here's a short shorty for those of you who play half-life on pc. I'm referring to the cheat impulse82
